TRiO Student Support Services helps students develop excellent academic skills, persist to graduation, and foster the habits of lifelong learning, within a culture of inclusivity and equality. To accomplish this mission, TRiO-SSS provides ongoing support throughout a student’s college career and promotes development through advocacy and services beyond what is offered to traditional OSU students.

Meet our new counselors

Christie Jones & Shalece Rains

"Shalece is originally from Tulsa, Oklahoma. She received her B.A. from Hawaii Pacific University in Teaching English as a Second Language and M.S. from Oregon State in College Student Services Administration. She enjoys finding treasures on the beach and making beaded jewelry. In addition to academic counseling, she will be the Tutor Coordinator for the TRiO SSS programs. With close to 20 years working in education, she appreciates the value of learning outside the classroom. Shalece is excited to join the team and especially the growth we will experience with the new TRiO SSS STEM program."

Christy Jones was born and raised in Corvallis, Oregon. She is an alumna of Oregon State University, where she earned her undergraduate degree in Business Information Systems, and her Master’s degree in College Student Services Administration. Christy was also a member of TRIO-SSS and EOP within her time here at Oregon State and attributed her success to the resources given to her within these support systems. Christy graduated with her father at Oregon State University where her father walked with her to receive his degree in Advanced Chemistry. She worked for the OSU Office of Financial Aid so she has great experience in that area. Christy is married and is a mother of two sons by the name of Jacoby and Julian who take up most of her time when she is not in the office working. In addition to academic counseling, she will be running the peer mentorship program through SSS. She is passionate about supporting others and looks forward to working with students who are underrepresented at the university. The staff and students here at TRIO-SSS would like to welcome her to the community, and are very excited to see her apply her skills within the program.
