## Academic Counselors

Academic counselors in SSS work in a holistic and complementary fashion with other support offices and departments on campus. Knowing that students must be empowered to utilize all available resources, we strive to work together with our campus constituents in advising, financial aid, disability access services, career services, and other departments on campus. Our job is to respond to students' needs and educate them regarding the overall systems within the university, while helping them navigate the variety of resources. With our understanding of their unique backgrounds, academic counselors communicate with students to guide them to "explore and define educational and career goals in an atmosphere of mutual respect and learning."
